“The Year Of Winning Strategies”

Message from the Pastor

Grace, mercy, and peace be unto you from God, our Father and Jesus, our Lord and Savior. It is of the Lords, mercies that we are not consumed, for His compassions fail not, they are new every morning. Morning by morning new mercies I see.

As I say all the time “it’s good to be alive! “Aren’t you thankful for one more day? Aren’t you glad God has been good to you? Aren’t you glad his favor rests upon you? Aren’t you glad he has protected you and provided for you? Aren’t you glad he is still working, miracles, making ways out of no way, and opening doors that no man can shut? I know I sure am I can testify that God has been good to me, and I give him glory honor and praise. While I am very intentional about being informational and inspirational in my monthly contribution to the New Hope newsletter, but there are times when you can just have to pause to express how thankful you are to God for his many blessings.

We celebrate Memorial Day this month. Remembering persons who served in the Armed Forces and gave their life in the line of duty. We also celebrate Mother’s Day, and for myself and my family, Mother’s Day ‘s, quite special, five months ago, my mother experienced a brain hemorrhage. We were totally caught off guard as it was rather unexpected. It shook our souls, tested our faith. I called on the saints of God across the globe to join me and my family in prayer for her healing on this side. To see how God was evident working every day and every part of the process for the confirmed his mighty power. I still testify of gods goodness and having one of the nation’s best neurologists from the West Coast here, assisting the neurological medical team, and he ended up performing a very necessary, life-saving procedure.

When we do not know what’s next, we do not understand it well, even when the future looks. Cloudy, God is at work. When things get tough, when things get rough, and you don’t know what your next move is God is at work. Through our challenges, hardships, problems, troubles, attacks, and even our sorrow God is at work! And we know that all things work together for the good of them that love the Lord and according to his purpose. I know this submission is not theological-ly Astute, nor is it intellectually, stimulating, however, I do know that God is real and that he will be with you, through thick and thin.

I encourage you to trust in the lord with all your heart and lean not to your own understanding. Acknowledge him in all your ways, and I guarantee he will direct your path. Sometimes it is difficult to trust God when we seemingly cannot trace God. Please know that God is with you, and will never leave you, nor for sake you. I am confident with you that you will be stronger on the other side of it. Your faith will be recharged, and your worship will be heightened, and your praise will be intensified.

In closing, I pray, God shower, you with grace, favor, and spiritual blessings. You will grow through it, so God can get you to it. That’s all for now and please know that I love all of you with the love of Jesus.

Because of Christ,

Pastor Q

Mental Health Awareness Month

The month of May is Mental Health Awareness Month. The goal throughout the month is to increase the awareness of mental health and to celebrate those who have recovered or in the process of becoming more mentally healthy. One of the leading problems today is suicide among teenagers. Although suicide is on the rise in every age group, it is now at an all-time high with youths, especially among girls.

According to recent data from the Center of Disease Control and Prevention (CDC), as of 2021, 3 in 5 girls are feeling persistently sad or hopeless. The number of suicides with girls doubled to that of boys in 2021. This could partially be the result of a 20% increase in sexual abuse with girls over the past 4 years and other types of traumas.

What is the role of the church? We as the church should be more alert to those in our family, congregation and community who are displaying signs of: isolation, extreme sadness, expressing words of hopelessness, loneliness and any unusual behavior that may seem different. We need to listen attentively and be more attuned to what we are observing, especially with our youth. It is not a time to ignore the behavior but reach out to support and seek help if needed. It is okay to talk about what you are seeing and ask questions. Always pray and ask God for guidance. God is the potter, but He puts people in place to minister to those that are broken.

Here at New Hope, the Mental Health Ministry, through the guidance of the Holy Spirit, is here to provide compassionate care, loving support, and trustworthy counseling.
